

MASTER PLAN GOALS AND
STAKEHOLDER OUTREACH

- Increase visibility/value to the hometown and flying communities
 - Capitalize on Sky Harbor’s uniqueness
 - Double down on strengths
 - Minimize weaknesses
 - Maximize revenue potential
- Financial feasibility & planning for projects included in final master plan
 - Maintain the critical balance between the sensitive natural environment around the airport & aviation community

INVENTORY SUMMARY

- Runway 14/32
- 2 Water Landing Strips
- Mobile CBP Services
- 31 Tiedowns
- 9 Private Hangars
- Terminal Building
- 100LL Fuel
- Maintenance, Mowing and Snow Removal Equipment

KEY FACILITY RECOMMENDATIONS

- Improve drainage and prevent apron flooding by removing unneeded apron pavement
 - Evaluate apron layouts to improve safety and reduce congestion
 - Provide additional hangar space to meet existing and forecasted demand
- Remodel or replace the terminal to improve user experience, ADA accessibility, and sustainability
 - Continue mobile Customs and Border Protection services
- Build Snow Removal Equipment Storage Facility
 - Upgrade existing seaplane dock, construct two additional docks, and rehabilitate seaplane ramp

FORECASTS

The aviation forecast analyzes current and future airport activity at DYT over a 20-year period. The Aviation Activity Forecast was approved by the FAA on April 20, 2021.
