- Construction Completion - **July 1st, 2024**

A. Resolution to Approve Work Order 2023 – 06 between the Duluth Airport Authority and Short Elliot Hendrickson, Inc. for the Construction Administration of the Taxiway C North at Duluth International Airport.

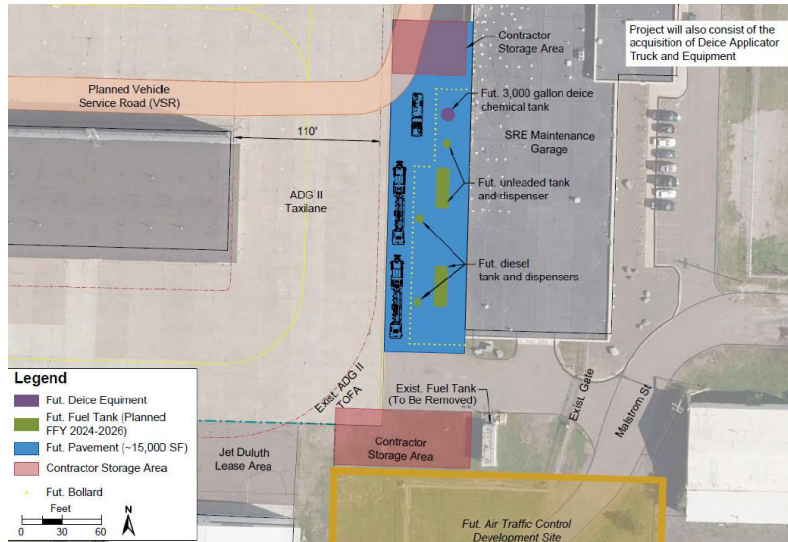

Project Description: Construction Administration Services for completion of the Taxiway C – North Pavement Rehabilitation

The scope of Construction-Phase Services includes management of the construction phase of the TW C – North rehabilitation project, including on-site inspection, construction meetings, submittals, construction phasing, budget tracking, cash flow reporting, pay applications, request for information processing, and additional services.

The proposal amount is \$48,900.00. (70% funded by MnDOT)

B. Resolution to Approve Work Order 2023 – 07 between the Duluth Airport Authority and Short Elliot Hendrickson, Inc. for Deice Tank and Pad Design and Construction Administration at Duluth International Airport (DLH).

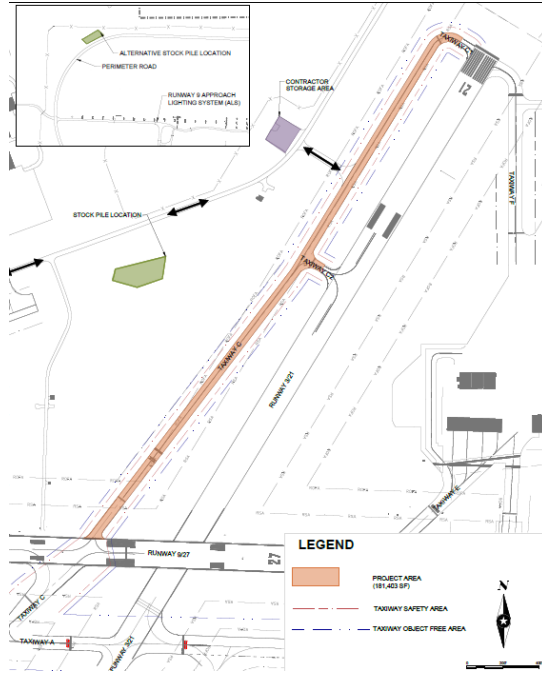

Project Description – The project consists of design of the concrete support slab for de-ice fluid tank, quotation packages for tanks and pads, acquisition support for pavement de-ice applicator, grant management, and closeout.

The proposal amount is \$49,500.00

Eligible portions of the project are anticipated to be funded by FAA at 90%, and the DAA at 10% as part of the Infrastructure Bill.

C. Resolution to Award Taxiway C North Mill and Overlay Construction Contract in the Amount of \$296,780 to KGM Contractors Inc.

The project includes rehabilitation of the northern half of Taxiway C (the parallel taxiway for Runway 3/21)

Total Contract Award: \$296,780.00

The project was below the Engineer's Estimate by 23%.

\$207,746 (70%) will be funded by a MnDOT Aeronautics construction grant.
